(54) CHARACTER IMAGE DISPLAY CONTROL SYSTEM, CHARACTER IMAGE DISPLAY CONTROL DEVICE, RECORDING MEDIUM AND ELECTRONIC GAME DEVICE

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a character image display control system, character image display control device, recording medium and electronic game device for surely and rapidly executing an unexpected game suitable to the present position or area.

SOLUTION: On an electronic map based on map data corresponding to the present position included in the game data delivered from a data delivery center HS according to a delivery request from a moving terminal such as cellular phone K or the like, a similarly delivered character image corresponding to the present position is displayed on a display part 4. When a direction key 3b or the like is then operated, the character image is moved on the electronic map according to this key operation and a delivered game program to execute a game. The game result is

displayed on the display part 4.
